

**James P. Wilmot Cancer Center  
University of Rochester**

**Translational Research  
in Hematologic Malignancies**

The Division of Hematology-Oncology and the James P. Wilmot Cancer Center of the University of Rochester are recruiting scientists with experience in mechanisms of oncogenesis, tumor biology, or experimental therapeutics for an expanding academic program in the biology and treatment of lymphoma. We are seeking laboratory investigators with demonstrated excellence as researchers to facilitate the development of novel translational studies and multidisciplinary efforts. Assistant, Associate or Full Professor level applicants will be considered. Competitive salaries and generous benefits are available. Please submit CV, list of references, and a summary of research interests to:

Richard I. Fisher, M.D  
Director, James P. Wilmot Cancer Center  
601 Elmwood Avenue, Box 704  
Rochester, NY 14642
